He Carried An Umbrella.

A dear old lady who was very "set" in her prejudices was asked just why she didn't like a certain man. She had no particular reason that she could think of at the instant, but she had been so emphatic in her expression of dislike that she knew she would have to find some excuse—at once. Just at that moment she happened to glance out of the window and saw him passing by. He carried a neatly rolled umbrella though it hardly threatened rain.

Quick as a flash she answered her questioner, "He carries an umbrella whether it's raining or not—he is a 'softie'."

"But said her friend, also looking out of the window, 'Here comes your son William, and he is carrying an umbrella.'"

This did not stump the old lady. "But that's another matter—I don't like him anyhow—and besides, it all depends on who carries the umbrella," she replied triumphantly.

That is the position some people taken regarding that wholesome and refreshing beverage Coca-Cola. They have said a good many unkind things about it and in each instance have had it proved to them that their tales were not true.

Finally they seized upon the fact that Coca-Cola gets much of its refreshing deliciousness from the small bit of caffeine that it contains. They looked upon that as a splendid argument against it. Then, like the old lady who was reminded of Son William, they were reminded that it is the caffeine in their favorite beverages, tea and coffee, (even more than in Coca-Cola) that gives them their refreshing and sustaining qualities.

But does that stop their criticism of Coca-Cola for containing caffeine? No—their answer is similar to the old lady's—they say "But that's another matter"—what they mean is "Being prejudiced against Coca-Cola and liking tea or coffee, it all depends on what carries the caffeine."

We think the joke is on them—for caffeine is caffeine, and if it is not harmful in one it can't be harmful in another. We all know that it is not harmful in tea or coffee—that it is really helpful in whatever it is—this is bound to include Coca-Cola.

Of course, the truth is, that having started an attack on false premises and having had what they thought were good reasons for criticism proved to be no reasons at all, they are grasping at an excuse which does not exist, to explain a prejudice. So you see, after all, it all depends on who carries the umbrella to people who are determined to be unfair. Let us be fair.

1914 Hudson 54---a Six

Motorists used to believe that a six-cylinder engine burned more gasoline and consumed more lubricating oil than a four. Today the number of people who still believe this is very small.

We know now that the consumption of a definite volume of gasoline produces a definite volume of power. It makes little difference whether you burn it in four cylinders or in six. What little difference there is, is in favor of the six.

A six used to be made by adding two cylinders to a four. Of course this increased the gasoline consumption by 50 per cent. But today we build sixes differently. Forty, or fifty or sixty horsepower can be produced by four cylinders or by six. The Total is the same. It is like saying 4x6 (small cylinders) is the same as 6x4 (big cylinders).

And with the six cylinder motor you get vastly greater economy of power, of wear and tear on your car, of tire upkeep, of vibration damage. You get easier riding, pleasanter driving, longer car-life, greater used-car selling-value.

These are questions vital to your enjoyment in and profitable use of your car. Come, see us and let us show you how the Hudson Six 54, and advanced six-cylinder car, will cost you no more to run—often less than a four. Let us show you the latest improvements. Maybe we can develop a way by which you can enjoy the enhanced pleasures that come through the owning and driving of a six.

At least see and ride in this new Hudson. It is the pattern toward which all 1914 cars are striving. You must see it in order to know the best that the motor world is doing this year.

AT THE DOOR.

I THOUGHT myself indeed secure.
So fast the door, so firm the lock;
But, lo, he treading comes to lure
My parent ear with thunders knock.

My heart was stone could I withstand
The sweetness of my baby's plea,
That timorous, baby knocking and,
"Please let me in, it's only me."

I threw aside the unfinished book
Regardless of its tempting charms,
And, opening wide the door, I took
My laughing darling in my arms.

Who knows but in eternity
I, like the truant child, shall wait,
The glories of a life to be
Beyond the Heavenly Father's gate?

And will that Heavenly Father need
The truant's supplicating cry
As at the outer door I plead,
"O Father, only I?"

"Laborare est orare." To labor is to pray. Work is religion, but not all work, not work that is grudgingly and carelessly and meanly done, but work that is done faithfully, generously, handsomely, work that is a joy both to the doer and to the person for whom the work is done. Such work as this bears an invisible flower and fruit—the flower and fruit of character, of moral worth.—John White Chadwick.

ST. PATRICK'S NAMESAKE

By ARTHUR W. BREWSTER

It was St. Patrick's day in the morning Mrs. Mulcahey dressed her son Pat, eleven years old, in his best suit and put a bit of green ribbon in the buttonhole of his jacket. After mass the O'Rourke children came over to the Mulcaheys to play with little Pat. There were Tommy O'Rourke, seven years old, and Nora, who was nine. They, too, had green ribbons on their breasts, and Mrs. Mulcahey, setting them all down in a row, told them stories of the patron saint of Ireland—how he did away with the slavery of the lower people and how he rescued the country from a false religion and established the true church. She also told them of the wonderful miracles done by St. Patrick and the many people he saved from some impending danger.

Everybody knows that St. Patrick's day falls on the 17th of March and that the 17th of March is near the beginning of spring. In the southern states sometimes it is pretty warm at that time, and the snow, melting farther north, swells the creeks, and the creeks swell the rivers, and occasionally they have what is called an inundation.

It happened that on this St. Patrick's day when those children lived they had an inundation. The O'Rourke children went home from the Mulcaheys about 3 o'clock in the afternoon and found the water, which had not been within half a mile of them in the morning, was now a foot deep all around the house. They thought it lots of fun to hold up their clothes and walk in the water to their front door. Their mother being out at work, Tommy made a raft of some old boards he found floating in the cellar, and then they had a fine time pushing themselves around with a clothes pole.

But the water kept getting deeper and deeper so that before dark the lower floor of the house was covered with water.

The flood began to look serious to the children, and they wished their mother would come home. But she had been at work during the day at a house built on lower ground than her home, and when the waters came up she was obliged to stay and help the persons living there to move out their effects. So when night came on she had not come home, and by this time a bridge over which she must pass had been washed away, and she was prevented from going farther.

So Nora lighted a lamp, and she and Tommy climbed the stairs to the second story to get away from the water. Tommy began to be frightened, but Nora told him that there was no reason to be scared. At any rate, if they were in danger the good saint that Mrs. Mulcahey had been telling them about in the morning would take care of them. But the water kept coming higher and higher, and after awhile they heard something crack below, and the house began to rock. Being of wood, it had been lifted off its foundation and was afloat.

"Mother," said little Pat Mulcahey that night, "we're lucky to be on this high ground."

"Yes, we are. It's dreadful to think of people in the valley."

"I wonder how it is at the O'Rourkes."

"I don't know."

"I'm going out to have a look."

"Don't you go far," said the mother anxiously.

Pat went down toward the O'Rourkes, but when still some distance from there he was stopped by the flood. In the direction of their house he saw a light slightly rocking, as though it were in a boat. All sorts of articles—boards, furniture and other things that would float—were slowly drifting about. Pat was worried about his two little friends and wished for a boat in which to go and see how they were getting on. But there was no boat at hand.

Presently the light he had seen appeared to be drawing nearer. Pat watched it as it came on, and after awhile he could look into a window. Some person or persons were inside, but the boy could not distinguish who they were. The house drifted to within a hundred feet of him, when it evidently grounded, for it didn't come any nearer. Then Pat heard a child crying.

A large board had floated near Pat, and he resolved to go out to the house. So he got some small pieces of wood for paddles and pulled out. Coming to a second story window, he put in his head.

"Tommy," cried a girl's voice, "we're saved. Here's St. Patrick come to take us to land."

"I'm Pat," said the little rescuer, "but I'm not the saint."

"Oh, Pat, is it you," cried Nora, relieved, "and have you come in a boat?"

"No, I've come on a board."

"My gracious goodness! We can't go away on a board."

"It's a big one. Come, Tom, I'll take you first; then I'll come back for Nora."

Tommy looked out of the window and, seeing the flood, drew back, but his sister urged him, and, getting on the plank, Pat pulled him to dry land. Then he returned for Nora and did the same for her.

Scarcely had they left the house when it floated on.

"If you're not St. Patrick," said Nora after reaching terra firma, "but only Pat Mulcahey, I believe the saint sent you to save us anyway."

The children stayed that night at Mrs. Mulcahey's and when their mother found them there she was delighted.

Said two tracts of Land lying and being situated in Medina County, Texas. That on the said 1st day of August, A. D. 1913, the said Defendants unlawfully entered upon said premises and ejected plaintiffs therefrom and unlawfully withheld from them the possession thereof.

That plaintiff Louis Rothe's title to the above described lands is by virtue of a deed from Alvin P. Granger to F. Rothe and Bros., a firm consisting of Henry Rothe, Fritz Rothe, Louis Rothe and August Rothe, dated August 19, 1880, recorded in the Deed Records of Medina County, Texas, in Book A, No. 22, on page 24; and by deed from the said Henry Rothe and Fritz Rothe to Louis Rothe and A. C. Rothe, dated February 19th, 1897, recorded in the Deed Records of Medina County, Texas, in Book A, No. 37, on page 507. That the said deed from Alvin P. Granger to F. Rothe and Bros. was filed for registration in the County Clerk's office of said Medina County, on October 3rd, 1889, that said deed from Henry and Fritz Rothe to Louis and A. C. Rothe was filed for registration in said Medina County on February 23, 1897; that said deed from A. C. Rothe to Louis Rothe was filed for registration in said Medina County on July 15, 1905. That the title of plaintiff A. C. Rothe Jr. to a part of said survey No. 1005, is by virtue of a deed from Henry Rothe, A. C. Rothe, Louis Rothe and F. Rothe, dated ——— 1912, filed June 10, 1912, for registration in said Medina County, and recorded in Book A, No. 47, on pages 430 and 431, of the Deed Records of said County.

Plaintiffs further represent and allege that they have a good and perfect title to said Land and premises under and by virtue of the Statute of Limitation of (3) three years for the reason that said plaintiffs, and those under whom they claim by duly registered deeds, have had peaceable and adverse possession thereof under title or color of title for more than three years prior to the institution of this suit.

Plaintiffs further represent and allege that they have a good and perfect title to said land and premises under and by virtue of the Statute of Limitation of five (5) years for the reason that said plaintiffs and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said land and premises, cultivating, using and enjoying the same and paying all taxes due thereon as the same

accrue, and claiming the title thereto under and by virtue of the above mentioned deeds of conveyance, duly filed and registered as aforesaid, for more than five years prior to the time of the institution of this suit.

Plaintiffs further represent and allege that they have a good and perfect title to the lands and premises under and by virtue of the Statute of Limitation of ten (10) years for the reason that plaintiffs, and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said Land and premises, cultivating, grazing, using and enjoying the same for more than ten years prior to the time of the institution of this suit.

Plaintiffs further represent that the title or claim of the said J. N. Berryman, and the unknown heirs of the said J. N. Berryman, if any, to the above described lands, is by virtue of the patent issued by the State of Texas, to the said J. N. Berryman on July 16, 1852, being patent No. 579, vol. 9.

That the title or claim of defendant W. H. Parsons, and the unknown heirs of W. H. Parsons, is unknown; that the title of defendant, Myra W. Parsons, and the unknown heirs of Myra W. Parsons, if any, is by virtue of a deed from said defendant, W. H. Parsons, to said Myra W. Parsons, dated May 6, 1878, filed for record in Medina County, Texas, on June 27, 1879, and recorded in the deed records of said county in Book A, No. 12, on page 530; that the title or claim of defendant, Jacob Massina, and the unknown heirs of Jacob Massina, is unknown to plaintiffs; that the title or claim of defendant, A. P. Granger, and the unknown heirs of A. P. Granger, is by virtue of a deed from defendant, Jacob Massina, to the said A. P. Granger, dated March 21, 1878, filed for record in the deed records of Medina County, Texas, on June 11, 1878, and recorded in the deed records of said county in Book A, No. 11, on page 538.

Plaintiffs bring this suit for the purpose of determining the estate, interest or claim, if any, of each and all of the above named defendants, or any person or persons who may claim under them, in and to said lands and premises and that the court may adjudge and decree unto plaintiffs the said land and premises, free from any claim, title or interest of the said defendants, or any of them, and to forever settle by decree of court the title to said lands.

Wherefore, plaintiffs pray that said defendants, the names of part of whom are unknown to plaintiffs, and the residences of all are unknown to plaintiffs, be cited by publication as prescribed by the Statutes of this State, and that

upon final hearing in the case that plaintiffs have judgment of the Court, declaring and adjudicating the title to the above described lands to be in plaintiffs free from any and all claims in favor of said defendants, or any of them, and for such other and further relief, general or special, legal or equitable, to which plaintiffs may be justly entitled to.

And you will summon the said defendants to so answer the said petition by making publication of this citation in some newspaper published in Medina County, Texas, if there be any newspaper published therein, but if not, then in any newspaper published in the nearest county where a newspaper is published, once in each week for eight successive weeks previous to the return day hereof.

Herein fail not, but have you before said Court at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, August Kempf, Clerk of the District Court of Medina County, Texas.

Given under my hand and seal of said Court at office in Hondo, this 27th day of August, A. D. 1913. Issued same day.

Within easy reach of every point are modern gins, well equipped schools, commodious churches, good roads lead everywhere, to nearby railroad stations and the best markets in Texas.

This property has not been offered earlier because these very necessary advantages were not to be had, but now they are a reality—nothing is left to speculation or future contingencies. Settlers now have all the advantages that can be found anywhere in a fully developed community without paying the prices that are asked in the older sections. You can have the benefit, for I am offering you the most desirable opportunity in Texas.

These lands are as good as can be had in South Texas; there are no better anywhere. Plenty of water can be obtained on any tract and shallow wells can be located at small cost furnishing an abundance of good water. TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"TESS and TED" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have gold-leather heels, soles and counters. No substitutes for leather are ever used. See No. 3130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud! We heartily endorse it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 700 other styles of "Star Brand" shoes are for sale by 30,000 good merchants. You just go into ANY store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insure honest values.

"Star Brand Shoes Are Better."

Capt. Fred Metzger, an old Veteran, Gives Us Another Warning.

We must thank God, our Creator that he has given the United States President Wilson, a man who can control himself, and the selfish inclinations. He is true in all the duties of life. God has given him wisdom and armed him with perfect manhood. He has given him eyes to see and ears to hear to control and govern those around him. He is the greatest ruler that this Government has had for many years. He will not intervene in Mexico for he knows if we should have war with Mexico we could not get our soldiers there before the Mexicans would have massacred all Americans and Foreigners in Mexico. Then there would be war sure enough, for the United States would take every City in Mexico in six months. But what have we gained? Nothing. But lost; for we have sacrificed the lives of our citizens and foreigners in Mexico and thousands of our young men in a horrible campaign, in a tropical climate where even the water is poisoned by the Mexicans. Even the Priests of Mexico would lead them in battle as it was in 1847 and 48, which I have seen.

No, the United States must not have war with Mexico for we would have to sacrifice thousands of our poor young soldiers, untold millions of money out of the treasury and an annual trade of two hundred million—all this for the rich. And when would we have peace? God only knows! What will be done with the Mexicans in the United States? They came here for protection. Some are citizens of Texas. Some have been here for 30 years. Would it be right for them to be massacred like their people have done? There will be some killed for some are savages and revengeful but what can be done with them? And all this sacrifice is to be made by the United States because there are rich Americans in Mexico—land owners. They have all the oil and mines in Mexico. The patriotism is at a very low tide in the United States. They have no time. It's money and land they want. Even our Ambassador Wilson in the City of Mexico showed it. The United States must let Mex-

ico fight her own battles for peace to be maintained in Mexico by no other means than the Iron hand of despotism. The mass of the people may have access to ownership of land to be free people and not peons. Mexicans must be brothers. We must elect a President that must true in all duties of life to the Mexican people. They must get rid of Huerta and Diaz, the murderers. Madera, for they are self made President and General. The Mexican people must aim to elect a President who will teach them the brotherhood man and brotherly love, relief the duty they owe to God and the Country. That is what will make them and restore peace in Mexico. The sacrifices the United States would have to make to have war with Mexico is too great. Their oil and land and all the people in Mexico all their money are not worth our soldiers that would be killed and wounded and poisoned in Mexico. Our President knows all this and will do what is right and just in all things.

Yes Paint.

May be high next year, so work has been put off and more so.

Men don't know that it costs more money to wait than to paint; it costs about 10 per cent to wait, and over 5 for the extra price.

What is 5? About \$250 on the average job (3000 square feet); 10 per cent, 15 of average paint, yes 30 some.

Suppose there's plenty of oil this year, won't go down? Yes, a little there can't be plenty of oil; the demand settles that. Half the world last year and this is waiting; so we are.

PRACTICAL BAKING LESSONS

BAKING POWDER BREADS

Baking Powder Breads have three things in their favor which are making them more and more popular. They are an agreeable change from yeast bread, they are quick and easily made and are especially useful in emergencies, and they are often prescribed by physicians when yeast bread continues to ferment in the digestive tract. Baking Powder Breads may be made in almost endless variety. A few of the most popular recipes are given below.

Nevada Briggs

Nut Bread

2 1/2 cups white flour 1/2 cup sugar
2 1/2 level teaspoons K C Baking Powder 1 egg beaten light
1 level teaspoonful salt 1 cup nuts (pecans or walnuts chopped rather fine)

First sift together, three times, the flour, baking powder, sugar and salt, add nut meats. Beat the egg, add the milk and stir into the dry ingredients, mixing thoroughly to make a stiff drop batter. Grease a small bread pan, drop the batter into this, turn a pan of the same size over the top and bake one hour. The first half of the time have the oven very slow, then increase the heat. This bread is excellent when several days old.

This bread can be baked in any empty can that has a close-fitting lid. To bake in a can fill the ground can half full of the batter, put on the lid and shake batter to the side of the can, lay it on its side in the oven. Bake slowly the first half hour, turn the can to the other side and bake last half hour with a hotter oven.

Plain White Bread

4 cups sifted flour 1 teaspoonful salt
4 level teaspoons K C Baking Powder 2 1/2 cups milk (or water)
2 cups milk (or water)

Sift together, three times, the flour, baking powder, salt (and sugar if used), stir in the milk or water to make a dough. Use exactly same baking directions as for Nut Bread, baking in cans or a bread pan.

Colonial Loaf

2 1/2 cups of flour 1 teaspoonful salt
1/2 cup chopped nuts 1 cup sugar
1 cup milk 1/2 cup sugar
3 level teaspoons K C Baking Powder 1/2 cup sugar
1/2 cup chopped raisins, currants or citron as desired

Mix and bake as directed for Nut Bread.

Rye Bread

1 cup of white flour 2 cups of rye flour
3 level teaspoons K C Baking Powder 1 teaspoonful salt
2 1/2 cups milk (or water) 1/2 cup sugar
2 1/2 cups milk (or water)

To mix, sift flour, baking powder, salt and sugar, three times, add the rye flour and milk and mix and bake by rules for other breads. This is excellent for sandwiches.

Graham-Nut Bread

1 1/2 cups white flour 1 1/2 cups graham flour
2 1/2 cups milk (or water) 1 teaspoonful salt
1/2 cup chopped nuts or raisins 1/2 cup sugar
4 level teaspoons K C Baking Powder 1/2 cup sugar

To mix, sift white flour, baking powder, salt and sugar, three times, add the graham and nuts. Stir to stiff batter with the milk and bake as nut bread above. This is an excellent bread for those who cannot eat white bread or meats.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription is put up in liquid form as called.

DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain this powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid. The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound. ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

Good for Biliousness.

"I took two of Chamberlain's Tablets last night, and I feel fifty per cent better than I have for weeks," says J. J. Firestone of Allegan, Mich.

"They are certainly a fine article for biliousness. For sale by W. H. Windrow."

The only thing that gives weight to a fish story is the scales.

When you feel Lazy, Stretched, Half Sick, Blue and Out of Sorts, look to the Liver; it is Torpid.

HERBINE
Is the Remedy You Need.

It is an invigorating tonic for a torpid liver. The first dose brings improvement; a few days use puts the liver in the vigorous condition. Herbine also extends its restorative influence to the stomach and bowels. It helps digestion and food assimilation, purifies the bowels and brings back the habit of regular daily bowel movements. When the stomach, liver and bowels are active, bilious impurities no longer obstruct functional processes, the result of which is renewed energy, mental activity and cheerful spirits.

DON'T TAKE THE WRONG MEDICINE

If Your Liver Gets Lazy You Need a Liver Tonic, Not Merely a Laxative for the Bowels

Many people take a simple laxative when their liver gets sluggish rather than take calomel, which they know to be dangerous. But a mere laxative will not start a sluggish liver. What is needed is a tonic that will live up the liver without forcing you to stay at home and lose a day from your business.

You have such a tonic in Dodson's Liver Tonic. Dodson's Liver Tonic must be all they claim for it because they guarantee it to take the place of dangerous calomel and agree to hand back the money with a smile to any person who tries Dodson's Liver Tonic and is not satisfied with the relief it gives.

Dodson's Liver Tonic is a harmless vegetable liquid with a pleasant taste, and is a prompt and reliable remedy for constipation, biliousness, sour stomach, and the other troubles that come from a torpid liver.

W. H. Windrow gives it his personal guarantee and if you will ask about this guarantee you will protect yourself against imitations that are not guaranteed. Large bottle of Dodson's Liver Tonic is 50 cents.
